## SFM's online services simplify workers' compensation

### Conveniently report work injuries online

SFM's website gives you two ways to report injuries:

- 1** Enter your policy number and the date of injury in the standard online First Report of Injury form.

- 2** Or, log in to CompOnline. This is the most convenient reporting method:

- Save time with pre-filled information.
- Save unfinished reports to submit later.
- View past submitted First Reports.

### Manage your workers' compensation costs

Through CompOnline, get real-time information to help manage your organization's workers' compensation costs.

- See what's happening on a specific claim.
- Create and download ad hoc claims data reports, spreadsheets, charts and graphs.
- Subscribe to management reports to help analyze injury trends and steer your orga-

nization's safety efforts.

- Look up your organization's premium, e-mod, class codes and billing information.
- View policy coverage and dates.

Complete the attached registration form to get started. No cost to SFM policyholders.

### Access resources to train supervisors, employees

Through SFM's "Resource catalog," you can download or order at no cost:

- More than 230 literature pieces and thousands of videos.
- Topical information on general workers' compensation laws and benefits, claims

best practices and injury prevention tips, including turnkey training materials.

- Online safety training for your employees.
