

Chemical Management

## The #1 SDS/Chemical Management Solution

2020 ISHN Readers' Choice Award

**A comprehensive cloud software solution for tracking, labeling, managing, and reporting on your hazardous chemicals, and providing right-to-know access to GHS-formatted SDSs on any mobile device.**

### Core Capabilities

- Safety Data Sheet (SDS) Management
- Chemical Inventory Management
- Right-to-Know Compliance
- Regulatory Reporting
- Custom Labeling

### Chemical Management Made Easy

Your employees require access to chemical hazard information, and an easy way to create labels and track chemical containers. At the same time, you need a chemical management system that simplifies GHS compliance and lets you quickly see the chemical footprint of your enterprise in real-time. VelocityEHS Chemical Management has you covered.

VelocityEHS' solution — rebuilt on a new platform featuring hundreds of new and improved features — includes around-the-clock access to the industry's best safety data sheet library, with millions of documents and more than 20,000 new or updated SDSs added each week. In addition, our SDS/Chemical Management mobile app gives you offline access to product and inventory information including safety data sheets for the chemicals in your workplace — no matter where you are.

Our solution simplifies complex chemical inventory management tasks, giving you the control you need to account for chemical hazards throughout your organization.

### Emergency Planning: Sharing is Preparing

Preparing for chemical emergencies is essential to protecting your community and ensuring employees make it home safe. Depending on the chemicals you have on-site, you may also be required by law to provide accurate chemical safety and inventory data to applicable emergency response agencies.

VelocityEHS gives you a complete picture of your chemical footprint — what chemicals you have on-site, storage locations and quantities of each — and makes sure that every chemical has an up-to-date SDS. We even allow you to upload floorplans to create detailed maps of your chemical inventory.

The best part is, VelocityEHS makes it easy for you to share all of this information directly with your first responders — in real-time — so they can access it when they need it most. It's the easiest way to meet your regulatory requirements and help maintain the safety of your employees, and the community.

### The VelocityEHS Platform

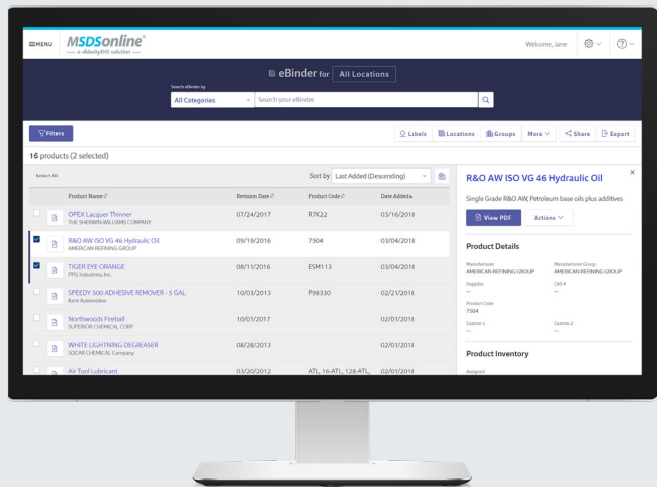

Check out all of our EHS management products, including:

## Features & Benefits

### Simplify Compliance

- Stay current with GHS-aligned hazard communication standards (e.g. OSHA HCS, WHMIS, CLP, WHS)
- Easily provide Right-to-Know SDS access and container labeling
- Get mobile access to your SDS library with our SDS/Chemical Management app

### Improve Chemical Management

- Access and manage your chemical inventory in the field
- Gain container-level visibility of the location, status and risks of chemicals in your facilities
- Scan barcodes, QR codes and UPCs with our SDS/Chemical Management app for real-time inventory management

### Streamline Reporting and Regulatory Cross-Referencing

- Identify chemicals regulated by various state, federal and international hazardous substance lists
- Simplify regulatory compliance reporting (e.g. EPCRA, COMAH, CMP)
- Evaluate chemical hazards to facilitate use of sustainable alternatives

## The VelocityEHS Advantage

### True Cloud Solution

Our Chemical Management solution can be accessed anywhere, anytime, from any mobile device, and our SDS/Chemical Management app gives you the flexibility to deploy our solutions even when you're offline.

### Helping You Be Better

Eliminate the day-to-day burdens associated with chemical inventory management and hazard communication so you can focus on being a more effective EHS leader.

### Delivering Value

Designed with continuous feedback and industry insights from customers like you, our solutions are more affordable, quicker and easier to implement, and provide the simplest user experience for you and your employees.

### Solving Complex Problems Simply

Our new, improved Chemical Management platform is even easier to use and quicker to implement, giving you more time to focus on the overall safety of your facilities and employees.

### Providing Personalized Service and Support

Our Chemical Management solution is backed by our expert team of Customer Success professionals who'll give you the individual attention you need to help reach your EHS goals faster.

Well-designed and intuitive solutions that are available across any device via the cloud give you and your employees anytime, anywhere access to the VelocityEHS platform.
